WHAT I CAN DO, WHAT I HAVE DONE, & HOW I HANDLE IT

Colliers International - Senior Graphic Designer
2008-Present

Heather Crayons - Freelance Creative
2008-Present

As a visual communicator over the last 10+ years, I have worked closely with an office of over 70+ and adapt well with different personalities/work environments. I do well with a team and can also handle juggling tasks on my own. I know how to balance using my skills for a project and letting the client take control of their vision.

I have worked on all of the following projects below with the brokers, their owners, and outside vendors from concept to completion. I also have created some of these projects as a freelancer outside of my full-time position because I really love what I do. I feel the best way to keep up with technology as a designer is to fully immerse myself into the craft as much as humanly possible. I love to do tutorials and learn from my fellow colleagues. I feel we can learn so much from each other to create amazing things.

Outside of the digital world, I love to get messy and paint mixed-media acrylic paintings for First Fridays on Santa Fe. I also like to volunteer my free time as an ambassador for Schomp MINI, working the Denver Auto Show every year.

- ✓ Multi-page Docs-Proposals
- ✓ Brochures-Offering Memorandums
- ✓ E-blasts
- ✓ Signage [Vinyl/Riders/Banners]
- ✓ Pre-press-Cutting Machine
- ✓ Photo-manipulation
- ✓ Branding-Collateral
